Product Specification Sheet

Targus Notebook Auto/Air 70W DC Power Adpater for Dell

Part #: APD45USZ

Product Description:

The Targus Mobile 70W DC Power Adapter is a mobile solution designed to power select Dell notebooks in the car, RV, boat, or plane. It is equipped with a 4ft cable and a cigarette lighter adapter plug that can also transform into an “In-flight” (Empower type) airline adapter. Both small and lightweight, the adapter features over current protection and short circuit protection with auto recovery to help prevent damage to the notebook.

The APD45USZ is compatible with the following Dell notebooks:

- Inspiron: 1501, 300M, 500M, 510M, 600M, 630M, 640M, 700M, 710M, 6000, 8500, 8600, 9200, 9300, 9400, E1405, E1505, E1705
- Latitude: ATG, 131L, D400, D410, D420, D500, D505, D510, D520, D600, D610, D620, D800, D810, D820, L100, X1, X300
- Precision: M20, M60, M65, M70
- XPS: M140, M1210

Product Features and Specifications:

- **Compatibility** - Designed to power select Dell notebooks through a single fixed tip #20
- **Power** - 70W of continuous power output
- **Mobility** - Designed for use with any standard cigarette lighter adapter or on airplanes with In-flight (Empower) type connector
- **Safety** - Built-in over-current and short circuit protection with auto recovery to prevent damage to the notebook
- **Portability** - At 6.35oz and a 4ft cable, the adapter is light and small enough for ease of travel and storage
- **RoHS Compliant** - Yes
